

SAMARPAN SARKAR

Frontend Engineer

Exp.: 3.2yrs

Bangalore | samarpansarkar209@gmail.com | 8250464855

PROFESSIONAL SUMMARY

Frontend Engineer building scalable web applications using **React.js**, **Redux Toolkit**, and **Tailwind CSS**. Currently driving frontend development at **Nayagara Technologies**, delivering production-grade enterprise modules. Strong expertise in component architecture, secure API integration, performance optimization, and responsive UI design.

TECHNICAL SKILLS

Languages:	HTML5, CSS3, JavaScript (ES6+), TypeScript (basic)
Frameworks:	React.js, Next.js, Redux Toolkit, Axios, Tailwind CSS
Tools:	Git, GitHub, VS Code, Postman, Redux DevTools
Concepts:	REST APIs, Component Architecture, JWT Auth, Performance Optimization

PROFESSIONAL EXPERIENCE

Frontend Engineer - Nayagara Technologies

Experience: 3.2yrs

Contract Client Name – Sony Entertainment

PROJECTS

Sony BLITZ CMS | Domain – Content Management System

Client: Sony Entertainment

Technology:

Frontend	HTML5, CSS, JavaScript, ReactJS, TailwindCSS, Material UI, Redux Tool Kit
Backend	Node.js, REST APIs, MongoDB, Redis, Kafka, RBAC (Role-Based Access Control), AWS S3, Nginx.
AI/Tools	Github Copilot, Claude, jira, PostMan, Chrome DevTool, Figma, git, github

Project Summary:

BLITZ is a Content Management System (CMS) for Sony liv to streamline the management of digital content. The CMS supports uploading, validating, and publishing various media types, including text, images, audio, video, subtitles and other metadata information. Key features include drag-and-drop uploading, automated content validation, dynamic forms, real-time and scheduled publishing, and easy interlinking of related content. The system also offers robust media management, including subtitle integration and image optimization, alongside role-based user management, activity logs.

My Roles & Responsibility:

- 1. Authentication Module:** Developed a sophisticated dual-authentication UI supporting CyberArk SSO and OTP-based login, ensuring secure access and robust error handling for administrative users.
- 2. User Management Module:** Build user creation, role assignment, edit flows, activate/deactivate controls, and pagination/filter views.

3. **Role-Based Access Control:** Engineered a robust Role-Based Access Control (RBAC) system using React Context and Higher-Order Components (HOCs) to dynamically render UI elements and enforce permissions across the platform.

Sterling Accuris Diagnostics | Domain – Healthcare/ Diagnostics

Client: Sterling Accuris Diagnostics

Technology:

Frontend	HTML5, CSS, JavaScript, ReactJS, TailwindCSS, zustand
Backend	Java, Spring Boot, Spring MVC, JPA, PostgreSQL, Redis, Jenkins(CI/CD)
AI/Tools	PostMan, Chrome DevTool, git, github,jira

Project Summary:

Sterling Accuris is an online diagnostics booking platform that enables patients to search tests & health packages, add items to cart, schedule home sample collection, upload prescriptions, and download lab reports. The application supports location-based lab discovery, patient registration, membership plans, and a smooth multi-step test booking flow. The platform emphasizes reliability, fast performance, a seamless mobile-friendly UX, and secure handling of medical documents. The system also integrates prescription management, dynamic pricing, patient detail workflows, and persistent cart handling to enhance user experience and booking conversions.

My Role & Responsibility:

1. **Cart Module:** Developed the entire Cart module, handling end-to-end workflow from test selection to booking confirmation.
2. **Cart Module:** Build the Add Patient workflow, enabling users to book tests for themselves or multiple family members by dynamically attaching patients to selected tests.
3. **Cart Module:** Implemented location selection flow where users provide pickup address details for home sample collection.
4. **Contact Us module:** displaying all communication channels (phone, email, address, WhatsApp) along with an interactive form that allows users to submit queries directly from the website.
